📄 Product Description

For safely storing and transporting 6 Raspberry PI 400s.The robust foam insert has elongated compartments - perfect for storing 6 Raspberry PI 400s, for example.The particularly solid yet soft foam provides excellent protection for the devices against mechanical impact. At the same time, the material is so light that the inlay has hardly any weight of its own. The arrangement of the compartments allows everything to be clearly organised.Compartment dimensions:- 6 compartments: 330 mm long x 28 mm wide x 125 mm deepThe foam insert has the following dimensions: 360 mm x 260 mm x 135 mm total height (125 mm usable height + 10 mm foam base)- high-quality, closed-cell PE rigid foam for high protection with low weight- The foam insert is designed for use in the 43/17 HG, ED 43/17, Auer Eurobox ED 43/27 HG, ED 43/27 Auer Eurobox ED 43/32 HG, ED 43/32. Use as a single transport solution or in other containers does not meet the technical specifications.- chlorine-free and acid-free- Made in Germany
