Product Description

High-quality foam set for safe storage of Spidicules, Sunstalker and small minis from Wave 1 and 2. When it comes to detailed and elaborate miniature design, the Kingdom Death Monster Spidicules and Sunstalker are hard to beat: the two giant miniatures really are the kings of monsters! Despite their imposing appearance, however, the figures are in need of protection. To ensure that the spider retains its eight tentacles and the Sunstalker its delicate arms, we have created a customised foam set. In addition to the two Mega Minis, all other Wave 1 + 2 figures can be stored in the set - with the exception of: Dragon King, Lion God, Lonely Tree, Gorm and Phoenix. The centrepiece of the set are the two stackable double-size inserts for Spidicules and Sunstalker. The lower tray has 5 compartments and a 10 mm base on which the two large figures and three smaller minis, such as The Lion Knight, can stand securely. The upper tray has two precisely fitting cut-outs for the upper parts of the two giants and is simply placed on the lower tray. This means that Spidicules and Sunstalker are well protected all round. The half-size and full-size inlays have matching compartments to safely store the small Wave 1 and Wave 2 minis (e.g. Kings Man or Flower Knight). The figures are of course not only protected from parts breaking off or chipped paint in the inlays, but are also clearly organised. This considerably reduces the time you need to set up the game, leaving you more time to play!
