Product Description

Are you ready to organise the fashion show of the year? Lots of materials and activities to become a real fashion designer: Use the shapes, models, patterns and different fabrics to create your dream collection! A practical and fun way to familiarise yourself with the world of fashion, allowing girls to let their imagination run wild and experiment with craft activities. Dresses, patterns and everything else you need to follow in the footsteps of a real fashion designer and learn that every creation comes from a design, composition and production process. The presentation of your own creations is just as important as the design phase. Everything must be ready to organise a big show and present the collection. In addition to stickers that can be stuck directly onto the Crazy Girls cardboard figures, the set also contains pre-cut fabrics that can be stuck onto the models with the help of simple instructions. Contains sketches that can be designed using the frottage technique, cardboard models for cutting out pieces of fabric from household materials and small accessories for designing clothes.
