Product Description

Official full colour insert compatible with Paladins of the West Kingdom: Collector's Box®, including the base game contents and City of Crowns® expansion and promo content. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The trays are arranged in two lines down the sides of the box, and a lower token tray area where the boards are placed. When packing the box, first place the three main board pieces and player board extensions on top of the lowest layer of trays. Next place the four player boards and solo board extension on top of the token trays. Note that the small board extension is placed on top of the Paladin card tray. Lastly place the rulebooks on top of everything as shown. This fully fills the box without any lid lift and allows for vertical storage of the game. Details- 5 Evacore sheets- Insert designed for game with external box dimensions of 29.7 x 29.7 x 7.2 cm
