### Product Description

The Dragon King is the centrepiece of Wave 2 of the Kingdom Death Monsters 1.5 + 1.6. As such, we think he deserves a fair amount of respect. For this reason, we have decided to build a cave especially for the Dragon King. The set, in which the exclusive miniature finds a safe haven, consists of two high-quality foam inserts and a foam lid. The lower of the two stackable inlays has a large, custom-fit compartment for the Dragon King. In addition, the insert has two further compartments for smaller KDM 1.5 + 1.6 + 1.6 Wave 2 miniatures such as the Flower Knight. Once you have filled the lower insert, simply place the upper insert, which has a customised cut-out for the Dragon King, on top. This covers the smaller miniatures and keeps the Dragon King safe. Finally, place the foam lid on top and nothing can happen to the model.
