Manufacturer: Pegasus Spiele

Product Description

The world of The Vale of Eternity is full of magical creatures such as giants, dragons, phoenixes, Nessie and many more. As tamers, players aim to tame and summon the most powerful of them in order to collect the most points with their help. There are a total of 70 creatures to discover in the game, inspired by different mythologies that allow for a wide variety of strategies. In each round, new creatures are revealed, which players can then sell to obtain rune stones. Alternatively, they can also tame creatures to take them into their hand, summon creatures to place them in front of them from their hand or release creatures to discard them. In the activation phase, all the effects of the creatures in your display take effect. Whoever can combine the abilities of the creatures in the best possible way will win The Vale of Eternity. Caution: Not suitable for children under 36 months.
