from **184,75 EUR**

Item no.: 377168
shipping weight: 10.00 kg
Manufacturer: Feldherr

Product Description

The large Feldherr complete set in a robust case: foam inserts to protect the submarine and accessories. Plus organiser to improve the gaming experience. Order, concentration and organisation are essential on board a class VIIC submarine. Every mistake and every minute lost can be your downfall. With this Feldherr Deluxe set, well thought-out and customised for "U-BOOT The Board Game", you get exactly the support you need to succeed in your next missions. - The box offers space for the assembled submarine model, all plastic miniatures and all the game material from the "U-BOAT: The Board Game" base game by PHALANX. - The Interior Tokens, Supply Tokens and Environmental Conditions Upgrade Resin Packs from the Kickstarter All-In Pledge can also be stored here. - No assembly required. All parts are ready to use. The set consists of: - 1 DTEB210 Euro container with hinged lid ED 86/22 HG- 1 foam inlay for submarine model and game material (DTMEUX130BO)- 1 foam inlay for sailor figures (HSHJ030BO)- 1 foam inlay for marker figures (FS035BO)- 1 token holder + cover for the first officer- 1 token holder + cover for the captain- 1 token holder + cover for the navigator- 1 token holder + cover for the first engineer- 1 studded foam insert, self-adhesive, as an insert for the lid- 1 foam mat, 10 mm, as a base for the player boards- 3 foam lids The assembled submarine model is stored in the centre of the large foam insert. This saves you the hassle of assembling and disassembling the submarine and gives you more time to play. It also prevents the cardboard from wearing away at the connectors. Thanks to the precisely cut compartment made of soft foam, you can be sure that the model won't be damaged during transport. Once the submarine model has been taken care of, we'll take care of the accessories so that you can concentrate fully on the game. The compartments for the cards, accessories and token holders are organised according to the individual player roles: The First Machinist- token holder with individual compartments for all role-specific chips and slots for the cigarette tokens- 2 compartments for First Machinist cards The Navigator- token holder with individual compartments for all role-specific chips, slots for the cigarette tokens and pencil holder- rectangular compartment for attack disc, 360-degree protractor and distance ruler The Captain- token holder with individual compartments for all role-specific chips and slots for the cigarette tokens- four compartments for the captain's cards The First Mate- token holder with individual compartments for all role-specific chips and slots for the cigarette tokens Token holder with individual compartments for all role-specific chips and slots for the cigarette tokens- four compartments for First Officer cards Everything you and your fellow players need for their roles is compactly stowed away in the token holders and always where you need it. Each chip, each marker and even the pencil are allocated individual compartments. Everything is optimally protected against wear and tear. This means you always have an overview. At the start of the game, simply take the token boxes, cards and game materials out of the tray and distribute them to your fellow players on the game table. You can now save yourself time-consuming organising and arranging. The two remaining compartments above the submarine are reserved for the team tokens and the rolled-up play mat. The attack disc and measuring instruments are in the large compartment next to it. The conning tower and the guns are placed in the three compartments next to the first officer. The set comes with a half-size foam insert to ensure that the sailor figures are also in good hands. Every sailor will find their bunk here. You can use the full-size insert to store the plastic markers (e.g. merchant ship and convoy markers). The Interior, Supply Tokens and Environmental Conditions Upgrade Resin Packs from the Kickstarter All-In Pledge can also be stored here. Once everything is neatly stowed away (as shown in the photos), place a mat under the player boards and the other foam covers on the inlays, close the box and you are ready for the next dive anytime, anywhere. Features Token holder: - thermoplastic- 3D printed in Germany- no assembly required - ready to play As with all 3D printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. Properties of foam inserts: - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany The foam inserts have the following dimensions: - DTMEUX130BO: 770 mm x 570 mm x 130 mm total height (120 mm usable height + 10 mm foam base)- FS035BO: 345 mm x 275 mm x 35 mm total height (25 mm usable height + 10 mm foam base)- HSHJ030BO: 275 mm x 172 mm x 30 mm total height (20 mm usable height + 10 mm foam base)
