### Product Description

For safe and tidy storage of your Glottkin model and 4 other miniatures. In the eyes of Papa Nurgle, the Glottkin are beautiful and stride gracefully towards their enemies. Unrivaled by all other children of Nurgle, the Glottkin Nurgles hand out generous gifts to the common folk, and in the eyes of the unbelievers, the Glottkin are sometimes the most disgusting things they have ever seen. Nevertheless, everyone agrees that it is a most impressive model. Festering boils, gaping wounds and bursting bumps are just some of the many details that turn your stomach. To keep it that way, we have the matching Feldherr full-size foam insert. This reliably protects your miniature from damage and prevents external influences from disfiguring your figure. There is a custom-fit compartment in the centre of the insert for the giant model. Here you can give Glottkin a cosy rest. Thanks to the precise cut, the figure is held firmly in place and does not slip during transport. It won't bump into other miniatures and won't break its horn or arm. Thanks to our soft, fine-pored foam, you don't have to worry about scratches and abrasions to your elaborately painted miniatures either. Four further compartments are available for additional servants of the plague god, such as a Harbinger of Decay, Epidemius, Beast of Nurgle or models of a similar size.
