Product Description

Foam inlay for a Knight Tyrant with Plasma Decimator and Volcano Lance or with Conflagration Cannon and Thunder Coil Harpoon. The Knight Tyrants are the heralds of the Chaos Gods and the worlds they enter shatter under the impact of their mighty weapon systems. Cities burn and entire armies are reduced to ashes. Ruined and corrupted to the core, the giant war machines spread naked horror across the galaxy. What was once noble has now become a horrific caricature of days gone by. To ensure that the firebrand cannon, thunder coil harpoon and plasma decimator remain ready for use, you should make sure that these battle machines are properly stored away from the battlefield. With this Feldherr foam inlay, you'll always be well prepared. A large compartment in the centre is tailor-made for a Knight Tyrant model. The compartment is suitable for a Knight Tyrant with plasma decimator and volcano lance or for a Knight Tyrant with fire cannon and thunder coil harpoon, and the custom-fit cut ensures that the miniature is securely packed in foam all round and that nothing happens to the figure on the way to the gaming table. The model lies securely and firmly in place and the colours of the painted Knight are optimally protected from scratches and abrasion. Six additional compartments provide space for further miniatures, weapon options or game material.
