from **34,78 EUR**

Item no.: 379806
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

For safe and organised storage of all 42 miniatures and accessories in the original game box. The last remaining humans, dwarves and elves who settle at the foot of Firestorm Peak already have a hard enough time. They have to defend themselves against the marauding gangs of orcs and goblins, and against even greater horrors lurking in the shadows. To make matters worse, a new villain has made his presence felt in the volcano: the red dragon Ashardalon ... So that you don't have to worry about broken weapons or missing Healing Surge Tokens - so you can concentrate fully on your heroes and their upcoming adventures - here is the Feldherr foam set for your "Wrath of Ashardalon" board game box. The set fits exactly into the original board game box for "Dungeons & Dragons: Wrath of Ashardalon Board Game" by Wizards of the Coast. - Provides space for all 42 miniatures and the complete game accessories. - The lid of the board game box protrudes approx. 6-7 cm. The set includes: - 2 foam inserts for miniatures (DKMEPU065BO) - 1 foam insert for large miniatures and cards (DKMEPT085BO) - 1 foam insert for tokens and markers (DKMEPV045BO) - 1 foam lid. The foam inserts are each half the width of the game box. Two are therefore placed next to each other in the box. On one side are the two foam inserts for the majority of the miniatures. Each hero, each monster and each individual villain is allocated its own compartment. From the Otyugh to the Cave Bears and the Kobold Dragonshield - each figure is securely packed in foam all round. Precisely fitting compartments ensure that the miniatures stay safely in place when travelling. This not only protects the fine parts from damage, but also protects the colours of painted figures from abrasion and scratches. The other two inserts next to it accommodate the large miniatures and game accessories. One large compartment houses the Red Dragon Ashardalon, 3 smaller ones the Grells. Two compartments are reserved for the cards. The card compartments are also suitable for cards with sleeves. The fourth compartment helps you to sort your tokens and markers. You can easily and clearly organise them here. This saves time and nerves when setting up the game and you will never lose a hit point token again. Of course, the dice also has its own compartment. The foam cover, which is also included in the set, covers the mats so that everything is securely packed in foam and nothing falls out of the insert when you're on the move. The larger cardboard components - the hero and villain cards, the dungeon tiles and the booklets - are placed on the cover. This ensures that all miniatures are safely packed, the game material is neatly stowed away and the contents of your box are optimally equipped for transport. The foam inserts have the following dimensions: - DKMEPU065BO: 300 mm x 150 mm x 65 mm total height (55 mm usable height + 10 mm foam base) - DKMEPT085BO: 300 mm x 150 mm x 85 mm total height (75 mm usable height + 10 mm foam base) - DKMEPV045BO: 300 mm x 150 mm x 45 mm total height (35 mm usable height + 10 mm foam base) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
