### Product Description

For safe and organised storage of figures and game material from the basic game in the original board game box  
The fall of the Mycenaean Empire left Ancient Greece in chaos. A select few take advantage of the disintegration, claim rule over the country and try to restore the old order. But as is the way with power, it led to greed and a war broke out for the sole sovereignty of Greece. Lured by this conflict, mysterious and technologically advanced beings appear to support the heroes with weapons and powers. Will you manage to survive in this land and stand your ground against warriors, monsters and gods? Many paths lead to power, decide for yourself which one you take. We have the right foam set for you so that your game does not follow the example of Ancient Greece and also fall victim to chaos and destruction.
