Product Description

Do you have both board game boxes - the basic game and the Frigost expansion - at home and want to keep them both organised with our foam inserts? Then this complete package would be a favourable solution for you. The two foam inserts fit exactly into the original board game boxes and thus provide optimal protection for your pieces. The game material can be clearly organised, saving you time and patience, which you can put to better use in the arena. Of course, each insert also comes with a matching foam lid to protect the contents of the box from the top. The base game and expansion are thus well stowed away and you are always prepared for the next game or tournament.
