from **29,78 EUR**

Item no.: 379885  
shipping weight: 0.20 kg  
Manufacturer: Feldherr

### Product Description

Face the crime on Gotham's streets and enjoy the protection and order offered by this Feldherr foam set with organiser. Slip into the skin of Batman and face Gotham's worst criminals. In this board game conversion of the popular Batman animation series, you can expect 40 highly detailed plastic miniatures, over 150 playing cards and lots of small-scale game material. It's easy to lose track. While Batman has customised gadgets to keep law and order, you can use this customised Feldherr set for your board game box. With this combination of Feldherr foam set and organiser, you have all the contents of "Batman: The Animated Series Adventures - Shadow of the Bat" under control. The soft, high-quality foam protects your delicate figures and prevents damage, while the plastic organiser and an assortment box keep your game material neatly sorted. While you make the streets safe, we prevent your board game box from becoming an impassable cave. 3 card holders and 1 token holder made of plastic, as well as an assortment box, help you to organise your game material neatly. For a quick start to the game, take the inserts and the assortment box out of the box and place them on the table. Tidying up after the game is also quicker thanks to the clear structure of the organiser. Simply place the tokens, cards and dice in the compartments and put them back in the game box. You're done and everything is ready for the next round. The set comes with a matching foam insert to ensure that your figures are well looked after. Thanks to the precise cut, all 40 plastic miniatures fit snugly. The soft, fine-pored foam protects delicate parts from breaking off and the colours of your painted models from scratches and paint abrasion. This means that Man Bat does not have to do without his wings and Two Faces' face is not disfigured by further scratches. The set is completed by the foam lids supplied. This ensures that all play components are securely packed and nothing bumps against the lid of the box during transport. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. All products are provided unpainted.
