Product Description

The extra-large double-size storage box with matching foam for the safe and tidy storage of up to 103 elite warriors. As elite warriors of the God-King Sigmar, the Stormcast Eternals deserve special respect. When they are not in use, you should therefore treat them with particular care. Our sturdy storage box - filled to the brim with matching foam inserts for your wonderful miniatures - gives your Stormcast Eternals a new, safe and organised home in which they can feel completely at home. The set contains:- 1 Feldherr storage box DS- 2 foam inserts for Lord Celestant and 8 other miniatures (FSMEPJ080BO + FSMEPJ090)- 2 foam inserts with 25 compartments each (FSLQ050BO)- 1 foam insert with 16 compartments (FSMEFP060BO)- 2 foam inserts with 6 compartments each (FSMEKU070BO)- 2 foam inserts with 7 compartments each (HSLZ060BO)- 1 self-adhesive grid foam insert (FS060RS)- 1 foam base for the grid foam insert- 2 foam bases as a cover The Lord Celestant requires two inserts due to its height, to pack it securely (FSMEPH080BO + FSMEPJ090). The lower insert is divided into one large and eight small compartments. The large compartment is tailored to fit the Stardrake perfectly. This keeps the figure securely in place and prevents it from sliding around during transport. The inserts are suitable for all build variants. You can store warrior miniatures, such as sequitors, retributors or character models, in the eight small compartments next to it. The eight compartments have the following dimensions:- 6 compartments: 45 mm long x 45 mm wide x 70 mm deep.- 1 compartment: 80 mm long x 65 mm wide x 70 mm deep.- 1 compartment: 65 mm long x 45 mm wide x 70 mm deep. The second insert is placed on top to ensure that the rest of the exclusive figure is securely packed in foam. This is provided with a miniature cut-out. This ensures that the delicate wings and all other intricate details are optimally protected from damage. When the miniature is finally painted after hours of intensive work, you can relax (at least until the next battle) because the colours are also safe from abrasion and scratches here. FSLQ050BO: The two inserts, each with 25 compartments, provide space for standard warriors on bases up to 40 mm in size.- Each of the 25 compartments of the two inserts is 54 mm long x 41 mm wide x 40 mm deep. FSMEFP060BO: In this insert with 16 compartments you can safely store models with protruding details such as Evocators.- Each of the 16 compartments is 74 mm long x 56 mm wide x 50 mm deep. FSMEKU070BO: The two inserts with six compartments each are suitable for larger miniatures, such as riders on 90 mm x 52 mm oval bases. You can safely store Vandus Hammerhand, the Concussors or the Evocators on Celestial Dracolines here. The six compartments of each of the two inserts have the following dimensions:- 4 compartments: 115 mm long x 85 mm wide x 60 mm deep.- 2 compartments: 115 mm long x 85 mm wide x 60 mm deep. 2 compartments: 115 mm long x 115 mm wide x 60 mm deep.
