Product Description

Feldherr has put together a double-size storage box with 14 custom-fit foam inserts so that you don't go completely mad organising all the fantastic miniatures and numerous game materials from "Deep Madness". Whether Devourer of Worlds, David and Pris or Mutilation - your miniatures are in good hands in our inserts made of fine-pored foam. Each miniature has its own compartment. This prevents the precious models from sliding around and any paint applied remains intact. Of course, the soft foam also reliably protects fragile parts from breaking off - Atrocity keeps its tongue, Unbound its tentacles. The set also has space for the numerous game materials - dice, (sleeved) cards, tokens, tiles. This means you won't get confused when setting up the game and can keep an eye on everything at all times. Of course, the inserts fit exactly into the sturdy double-size storage box. This is made of double-walled, coated cardboard and is therefore lightweight yet extremely hard-wearing. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box. The set is completed with a matching foam lid and two studded foam inserts. The foam lid is used to level out the height of the stacks of inserts in the storage box, while the dimpled foam inserts are placed on top of the inserts to prevent them from falling out.
