DSL310P38 - Storage box DSL310 for Necrons

from **114,93 EUR**

Item no.: 377279
shipping weight: 0.80 kg
Manufacturer: Feldherr

Product Description

After thousands of years, the last High King of the Necrons has returned and he has gathered a mighty force behind him. The greatness of the Silent King is reflected in the size of his army. To do justice to this, we have the right Feldherr storage box for you. The DSL310 is our largest box and stuffed to the brim with suitable foam for your 100+ miniatures. Not only will you make an impressive appearance, but your models will also be optimally protected. Spread over a total of 4 full-size and 8 half-size foam inserts, this storage box stores over 100 miniatures from your army. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Necrons from abrasion and scratches. He was the last High King of the Necrontyr, Szarekh the Silent King. In order to bring your model to the battlefield in all its glory, together with the Triarchate Menhirs, undamaged, we provide you with this customised Feldherr foam insert. The large compartment is precisely cut to fit the throne of the Dominion. The miniature-accurate cut ensures that the miniature of Szarekh, the Silent King, is securely packed all round and remains in place during transport. The two additional compartments are customised for the two Triarchate Menhirs. Even the most powerful ruler needs capable generals. Illuminor Szeras with a retinue of Immortals, Flayed Ones or models with similar dimensions can be transported into battle in a half-size insert with 14 matching compartments. The Feldherr half-size foam insert with 5 compartments provides a safe haven for various Necron units. The different sized compartments are ideal for storing larger miniatures such as a Kanoptek Reanimator as well as standard models in a clear and well-protected manner. As the Citadel models of the Monolith and the Ghost Barque are unfortunately unable to repair their damage themselves, we pack the matching Feldherr foam set, consisting of 2 inserts, in the storage box. The Ghost Ark has a safe place in the compartment next to it, so that it and its crew are also well accommodated. The height of the set is designed for a Ghost Ark without a flight base. The second insert is placed on top. This means that the remaining parts of the miniatures are also safely packed in foam. You can store a large selection of different Necron models in the half-size insert with 6 compartments. The large compartment is ideal for the Kanoptek Dominator Rider. The two medium-sized compartments on the side are ideal for miniatures the size of the Skorpekh Destroyers. And the three small compartments offer space for infantry or character miniatures on bases up to 40 mm (e.g. Imothek the Stormlord, Nemesor Zahndrekh or Immortals). The insert with the three large compartments is ideal for stowing larger Necron miniatures. For example, you can safely store your Catacomb Command Barge/Annihilation Barge (without flying base) or Canoptek Wraiths here. The half-size foam insert with 6 large compartments is ideal for neatly and safely storing and transporting medium-sized Necron models. Additional Tomb Blades and Destroyers can be safely stored in the insert with 12 compartments. You can also store Necron Warriors or miniatures with similar dimensions here. Two full-size and one half-size insert are provided for standard miniatures from your army, such as Necron Warriors, Immortals, Deathmarks and miniatures with similar dimensions. Finally, the foam lid supplied ensures that your figures are securely packed from all sides and survive transport to the gaming table undamaged. Of course, the inserts fit exactly into the sturdy double-size storage box. This is made of double-walled, coated cardboard and is therefore lightweight yet extremely hard-wearing. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box.

Technical details- fine-pored foam - Made in Germany- chlorine-free and acid-free
Technical data
Internal dimensions: - length: 56 cm- width: 36 cm- height: 31 cm
