Product Description

The Great Fratricidal War is raging. It is the Age of Darkness and the landscape of ruins is lit only by the guns of the armies. Gigantic god machines clash and lay entire planets in ruins. Decide which side you want to fight on - loyalists or traitors - and lead your Titan legion into battle. Whichever side you choose, with our extra-large double-size storage box set your Titans are safely stored and always ready for the next battle. With the exception of 6 small compartments in the FSJQ060BO insert (where you can store accessories such as dice or tokens), all the compartments in the set's inserts are suitable for Adeptus Titanicus miniatures. The fact that the figures are stored in individual compartments and the soft foam ensure that the miniatures are optimally protected from damage during transport and that the colours of coloured models are preserved. The inserts naturally fit exactly into the sturdy double-size storage box. This is made of double-walled, coated cardboard and is therefore lightweight yet extremely hard-wearing. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box.
