Product Description

Knights are not just a trump card in the Imperial Army. Sworn to the Chaos Gods, the Chaos Knights pulverise everything in their path and represent an almost indomitable war machine. To ensure that your Knights' armaments are always ready for action and that you continue to enjoy the favour of the gods, you should make sure that they are properly stored away from the battlefield. With the Feldherr double-size storage box and the included foam inserts, you'll be well prepared. The four inserts are each divided into 4 individually customised compartments. You can safely store a huge Knight Tyrant as well as the smaller Rampager, Desecrator and Despoiler - upper section with weapon unit and lower section with barrel unit. Surrounded by foam, the sensitive parts of the miniature are optimally protected, even during transport. The insert has 1 additional compartment for a smaller War Dog with War Dog machine guns or with reaper chain splitter and thermal spear. A fourth compartment is at your disposal. It is ideal for use as an armoury, for example, where you can store unused weapons. Place the two 20 mm thick double-size foam lids on top of the inserts. On the one hand, the thick dimpled foam reliably protects your miniatures, on the other hand it serves as a stable intermediate base. The foam lid supplied closes things off and ensures that your miniatures are well protected all round. The DSL310 storage box is made of coated, double-wall cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
