

Item no.: 377221

EB76SET - ESD foam set + Euro Box with 16 compartments for 3.5 inch hard drives

from **68,02 EUR**

Item no.: 377221
shipping weight: 2.50 kg
Manufacturer: Feldherr

Product Description

This set consists of ESD foam inserts and an ESD Euro container ED 43/22 HG. Ideal for 3.5" hard drives in production, storage or logistics. There is space for up to 16 hard drives with standard dimensions of 147 mm x 102 mm x 26 mm. Internal hard drives with exposed electronics are particularly susceptible to data corruption through electrostatic discharge. The transport box and foam are therefore made of antistatic material, which has been proven to prevent static discharge. The set is therefore also suitable for protecting hard drives for multi-way use on conveyor belts. The connections of the hard drives are accessible thanks to vertical storage for uncomplicated commissioning. A slight protrusion of the hard drives from the foam provides space for labelling.

Details- Made in Germany
Technical details- External dimensions: 400 mm x 300 mm x 235 mm- Internal dimensions: 370 mm x 270 mm x 205 mm
Contents- 1 ESD foam insert with 16 cut-outs for 3.5" hard drives (DDMFCV120ESD) made of polyurethane- 3 ESD foam shelves made of polyurethane- 1 ESD studded foam, self-adhesive (DFNP020SESD) made of polyurethane- 1 ESD Euro container with hinged lid (ED 43/22 HG) from AUER Packaging
