### Product Description

Since the earliest days, the Adeptus Custodes has marched into battle full of splendour and glory. With this Feldherr storage box, you can store up to 78 Adeptus Custodes miniatures and start your own crusade. Five full-size and five half-size foam inserts ensure that your Emperor's Bodyguard is stored safely and neatly. Precisely fitting compartments for each miniature prevent the figures from sliding around or bumping into each other during transport. This ensures that the weapons and fine decorations remain on the model. The soft foam also protects the colours of your painted figures from abrasion and scratches. To prevent your Vertus Praetors' lances from snapping off, stow your golden horsemen in the inserts with four compartments each. The generously sized compartments leave enough room for expansive models, such as a shield captain with a raised lance. A total of 4 Venerable Contemptor Dreadnoughts can wait to be used in the 4 large compartments of the 2 high half-size inserts. Custodian Guards, Allarus Custodians and similarly sized miniatures are best kept in the 16 other compartments.
