Product Description

The sturdy double-size storage box with matching foam for safe storage of the Optional Buys and KS Exclusives - incl. foam set for the Dark Side board game box. As usual, there is also a wealth of Optional Buys and Kickstarter Exclusives this season, which will expand your "Zombicide: Invader" collection with many new campaigns, miniatures and game material. To store all this neatly, here is the large Feldherr double-size storage box, filled to the brim with matching foam inserts. A separate foam set for the original game box is also available for the Dark Side Box. The fine-pored Feldherr foam naturally provides reliable protection for the game components: Sensitive parts remain undamaged, surfaces are spared scratches and abrasion. The set consists of two individual sets: a foam set for the dark side box from CMON and a storage box set in which you can store the content of all other optional buys. You place the foam lid on the foam set - so nothing can fall out during transport. The lid of the board game box sticks out approx. 6 cm.
