Product Description

The Tyranids descend on the galaxy like a swarm of locusts, leaving nothing but dead, barren worlds in their wake. The sturdy double-size storage box from Feldherr is the right choice for transporting your swarm safely to the next big feast. Filled to the brim with the right foam for your Tyranid models, they are reliably protected from damage and ready for use at any time. Spread over a total of 4 full-size and 8 half-size inserts, this storage box can hold over 130 miniatures from your swarm. Precisely fitting compartments for each individual model ensure that the figures do not slip or bump into each other during transport. This also protects the colours of the painted Tyranids from abrasion and scratches. As the hub of the swarm consciousness, the Swarmlord takes on the role of commander in your army. In the full-size insert with six compartments, you will find a miniature-specific compartment for a Swarmlord. In addition, five further compartments offer you space for additional miniatures of your choice. Three compartments are suitable for larger Tyranids, such as the Broodlord or Gargoyles, while the other two compartments can be used for small models or dice.
