Product Description

Imperial Knights are a trump card in any Imperial army. These giants of steel pulverise everything in their path and represent an almost indomitable war machine. To ensure that your Knights' armaments are always ready for action, you should make sure they are stored properly away from the battlefield. With the Feldherr double-size storage box and the included foam inserts, you'll be well prepared. The four inserts are each divided into 4 individually customised compartments. Both a large Knight of the Dominus class (e.g. Knight Castellan or Knight Valiant) and his smaller brothers from the Questoris class (e.g. Knight Warden or Canis Rex) can be safely stored here in two parts - upper part with weapon unit and lower part with barrel unit. Surrounded by foam, the sensitive parts of the miniature are optimally protected, even during transport. The insert has 1 additional compartment for a smaller Knight of the Armiger class (e.g. Armiger Helverins or Warglaives). A fourth compartment is available for free use. It is ideal for use as an armoury, for example, where you can store unused weapons. The DSL310 storage box is made of coated, double-walled cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
