DSLB310P35 - DSLB310 storage box for Adeptus Mechanicus

from 115,34 EUR

shipping weight: 0.90 kg Manufacturer: Feldherr

Product Description

The logic of the Omnissiah dictates that you keep your army safe and tidy. With this Feldherr storage box, you can store more than 90 Adeptus Mechanicus miniatures and appeare the machine spirits. One double-size, one full-size and nine half-size foam inserts are available. Matching compartments for each miniature prevent the figures from sliding around or bumping into each other during transport. This ensures that the weapons and fine decorations remain on the model. The soft foam also protects the colours of your painted figures from abrasion and scratches. Protecting your technology in this way will make the machine gods happy. Your Archaeopter model, built as a Transvector, Fusilave or Stratoraptor, gets the protection it needs with the Feldherr double-size foam insert. A large, miniature-specific compartment accommodates the flyer miniature, while the flight base stand on the oval base has its own compartment right next to the flyer. Seven additional compartments are available for your use. You can store Belisarius Cawl and similarly sized miniatures in the three large compartments, for example. The other compartments are ideal for Castellan Robots, Serberys or character models.
