Product Description

Minas Tirith lies seemingly lost under the siege of Mordor and victory for the armies of evil is at hand. But with the first light of the new day, the horns of the Rohirrim ring out, bringing new hope to the kingdom of Gondor under the leadership of King Théoden. The triumph or downfall of the kingdom lies in your hands. The welfare of your miniatures, on the other hand, is an easier task. Because with this large storage box set for more than 220 miniatures, your models are stored compactly and safely. The storage of the models in precisely fitting compartments protects sensitive parts, such as the wings of the Winged Shadows, from damage. It also prevents the figures from sliding around and bumping into each other during transport. This also prevents the colours from chipping or rubbing off, which could be very annoying, and not just with the finely detailed miniatures of the Hell Vultures. The storage box set is also equipped with 5 generic full-size inserts. These are suitable for most hero and warrior miniatures from the Middle-Earth tabletop strategy game. Up to 160 models can be stored here in a well-organised and well-protected manner. 4 half-size inserts with a total of 28 compartments are available for the larger models, such as horsemen or knights. Even larger miniatures, such as trolls or siege ballista, can be safely stored in the two half-size inserts with a total of 6 large compartments. Finally, two matching foam lids ensure that everything is completely wrapped in foam and that the miniatures do not hit the lid of the storage box on bumpy paths. The DSLB310 storage box is made of coated, double-walled cardboard and is therefore very light and also very sturdy. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
