### Product Description

You no longer have to agonise over the best way to store and transport your Nighthaunt army to the gaming table. With our extra-large double-size storage box, you have space for over 160 models, all safely and neatly stored and compactly transported. **HSMEFB145BO**: The customised insert houses two mighty leaders of the Nighthaunt - Kurdoss Valentian, The Craven King and Reikenor the Grimhailer. The inlay is divided into 2 compartments, precisely tailored to the individual miniatures. This ensures that Kyallaron's wings remain intact during transport and that the Craven King's flag continues to fly. The set also includes an 80 mm grid foam insert for customised configuration. The insert is pre-perforated with a 14 mm x 14 mm grid. To customise it to your desired model, remove the corresponding foam segments and then glue the insert to the 10 mm foam base supplied. Done. Of course, the inserts fit exactly into the DSL310 storage box. This is made of coated, double-walled cardboard and is therefore both very light and very stable. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box. The set is completed by two additional matching foam shelves. The full-size base serves to equalise the height of the stacks of inserts in the storage box, while the double-size base acts as a cover to ensure that nothing can fall out during transport.
