Product Description

In Dominion, a lot of stacks of cards are part of the game. One wrong move is enough to knock over the stacks. With this set of 3 green Feldherr card deck holders, you can keep the playing field tidy and easily stack the Dominion score cards on the game table without having to worry about collapsing buildings. The table card holders are easy on your nerves and save you time. Thanks to their green colour, they match the score cards and stand out from the other playing cards and their trays. This gives you a better overview and makes it easier for you to sort the cards before and after the game. The plug-in system keeps the stacks in place and prevents them from sliding around. You can also organise the playing field according to your ideas. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are provided unpainted.
