Product Description

In Dominion, a lot of stacks of cards are part of the game. One careless movement is enough to knock over the stacks. With this set of three card holders, you can stow away the money cards, keep the playing field tidy and prevent a collapse of the finances. The table card holders save time and nerves. The golden colour matches the money cards and makes them stand out from the other cards and their trays. This gives you a better overview of the game and the finances. The clever plug-in system allows you to connect several card holders together. This gives the stacks stability and prevents them from sliding around. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are provided unpainted.

Details- The set is ideal for the money cards from Dominion in 62x94 mm format- The set has enough space to store the 120 copper, 80 silver and 60 gold cards required for the game- If you are playing with Hexe, you can also store the 60 curse cards in a card holder in addition to the money cards- The card holder was designed for cards without a protective cover- The design with 4 small side panels prevents the cards from falling out of the compartment
