EENP015 - 135 mm x 70 mm x 15 mm studded foam insert

1,05 EUR

Item no.: 376604
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

Dimpled foam is used to transport sensitive objects. Its wave shape makes it ideal for transporting sensitive products. Thanks to its corrugated shape, it adapts to the goods being transported, holds them in place and has a cushioning effect in the event of falls. We recommend using the dimpled foam as protection in the lids of transport crates, as this prevents your goods from hitting the crate lid and being damaged.
