from **8,15 EUR**

Item no.: 377090
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

For the safe storage of larger bolt action models, such as tanks and vehicles Don't know where to put your heavy gun? Don't worry! Your models are in good hands in our foam set. The 60 mm high grid foam insert is pre-perforated. Foam segments with a base area of 14 mm * 14 mm can be removed individually from the insert. This allows you to configure the areas required for your armour and vehicle types yourself. Once you have punched out the compartments, remove the film from the grid foam insert and glue the foam base to the insert - this ensures that your miniatures do not fall out. The high-quality foam protects delicate components such as gun barrels from breaking off in the best possible way. In addition, your models are safe from damage to the surface in the inlay - so once you have painted your vehicles, you can be sure that they will make a brilliant impression on the battlefield.

Set consists of- 1 self-adhesive full-size grid foam insert (FS060RS)- 1 foam base
Details- grid foam insert dimensions: 345 mm x 275 mm x 60 mm height- fine-pored foam- Made in Germany- chlorine-free and acid-free- Content: 1 piece
