Product Description

For the safekeeping of an Aeldari Ghost Warrior, plus 4 Jetbikes and 1 Vyper. Like a god of war, these noble monuments of Wraith crystal enter the battlefield. Although they tower far above even the Wraithlords, they are agile enough to skilfully dodge enemy fire. Not that they need to, as their extreme resilience is likely to overwhelm some opponents. With this appropriately sized model, Games Workshop shows the full extent of the Craftworlds Ghost Warrior. To ensure that the powerful arsenal of weapons remains ready for use in the future, we have this foam set for your Wraithknight. A compartment tailored precisely to the miniature of the Wraithknight provides optimum protection for this heavily armed battlefield statue. This not only protects the sensitive parts, such as the phantom blaster and ghost glaive, from damage. The colours of the painted figure also remain unharmed. The compartments next to it hold the units for quick attacks. 4 compartments are reserved for Aeldari warriors on jetbikes, such as Windriders or Skyrunners. A fifth, slightly larger compartment serves as a car park for a Vyper. All five vehicles, including the base, fit into the compartments. To protect the protruding parts of the Wraithknight, this set includes a separate cover with a cut-out for the large model. On the one hand, this protects the higher parts of the miniature and on the other hand, as a lid for the compartments with the vehicles, it ensures that they are completely surrounded by foam. A matching foam lid for the upper insert completes the set.
