Product Description

For the safe storage of a Terrorgheist model of the Flesh-eater Courts - Also for the Abhorrant Ghoul King on Terrorgheist When the scream of a Terrorgheist rings out from afar, even the most fearless warriors become uneasy. Tattered huge wings, fearsome claws and a fiendish skull with razor-sharp fangs - a figure that not only looks terrifying, it is an expression of the full brutality and power of this undead creature. As strong as the Terrorgheist may be on the battlefields, your miniature needs the right protection to arrive at the gaming table in full splendour. That's why you get the matching Feldherr foam set here. The lower insert is divided into 1 large and 14 small compartments. The large compartment is tailored to the base and the lower part of the dragon miniature. This ensures that the figure stands securely and does not slide around during transport. You can store small miniatures, such as the Crypt Ghouls from the Flesh-eater Courts, in the 14 small compartments next to it. The other two inserts are placed on top so that the rest of the figure is also securely packed in foam. These are provided with a miniature cut-out. This ensures that the delicate wings and all other intricate details are optimally protected from damage. When the miniature is finally painted after hours of intensive work, you can relax (at least until the next battle) because the colours are also safe from abrasion and scratches.
