from **20,56 EUR**

Item no.: 380481
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

For safely storing and transporting a Knight Castellan - Also suitable for other build options, such as Knight Valiant. The Knight Castellan is a mobile, towering Dominus-class fortress and the main artillery platform in the ranks of the Knight Houses. It is piloted by a high-ranking noble lord. This battle machine has the energy and arsenal of weapons to single-handedly destroy an entire army. To ensure that the shieldbreaker missiles, volcano lance and plasma decimator remain ready for use, you should make sure that this battle machine is stored properly away from the battlefield. With this Feldherr foam insert, you'll always be well prepared. A large compartment in the centre is tailor-made for a model of the Knight Castellan. - The compartment is also suitable for other models, such as the Knight Valiant, Knight Preceptor Canis Rex or the Imperial Knight Warden. The custom-fit cut ensures that the miniature is securely packed in foam all around and that the figure is not damaged on its way to the gaming table. The model lies securely and firmly in place and the colours of the painted Knight are optimally protected from scratches and abrasion. Six additional compartments offer space for further miniatures, weapon options or game material. - Each of the 6 compartments is 75 mm long x 60 mm wide x 130 mm deep. The full-size foam insert measures: 345 mm x 275 mm x 140 mm total height (130 mm usable height + 10 mm foam base). - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
