from **44,37 EUR**

Item no.: 376461
shipping weight: 0.60 kg
Manufacturer: Feldherr

Product Description

The set consists of:- 1 piece double-size raster foam insert 550 mm x 345 mm x 90 mm (DS090R)- 1 piece foam base 550 mm x 345 mm x 10 mm (DS010B)- 1 piece studded foam 540 mm x 340 mm x 20 mm (CFNP020)- 1 piece Auer Packaging Euro container / Euro box case with hinged lid ED 64/12 HG (DSEB115) 1 piece Auer Packaging Euro container / Euro Box case with hinged lid ED 64/12 HG (DSEB115)Set of Eurobox 600 mm x 400 mm x 135 mm filled with 1 grid foam insert. The grid of the foam allows the foam inserts to be customised to all shapes. It is ideal as protection for the transport of various industrial goods such as medical equipment, individual tool parts or technical devices. The grid foam is perforated with a grid of 20 mm x 20 mm x height of the insert (90 mm), as well as a circumferential edge of 25 mm. We use a 10 mm thick base (DS010B), which enables even heavy products to be transported. The dimpled foam serves as a top cover and is cut to fit the lid of the Auer Eurobox perfectly. As it is equipped with a self-adhesive film, you do not need any further aids. All you have to do is remove the adhesive film from the foam insert and stick the self-adhesive side into the hinged lid of the Eurobox. The entire set can therefore be designed, customised and used according to your personal requirements without any special tools.Information on DS090R grid foam:- Dimensions: 550 mm x 345 mm x 90 mm - Made in Germany- Chlorine-free and acid-free- Bulk density 23.0 kg/per cubic metre (+/- 2.0)Information on CFNP020 studded foam:- Dimensions: 540 mm x 340 mm x 20 mm- Made in Germany- Chlorine-free and acid-free- Bulk density 23.0 kg/per cubic metre (+/- 2.0)Information Auer Packaging Euro container / Euro box case with hinged lid ED 64/12 HG (DSEB115):Securely closedThe Euro container with hinged lid from AUER Packaging can be closed in no time at all thanks to the easy-to-use hinge system.
