from **48,83 EUR**

Item no.: 376447  
shipping weight: 0.80 kg  
Manufacturer: Feldherr

### Product Description

The compact solution for storing, presenting and transporting your model railway collection - Includes 18 spacers. Neatly stored, clearly presented and safely transported. The Feldherr foam insert for model railways in H0 gauge, stored horizontally in the sturdy Eurobox. The set consists of: - 1 Auer Packaging Euro container / Euro box with hinged lid ED 64/75 HG (DSEB070) - 1 double-size foam insert with 5 bars for H0 gauge models, lying flat (DS050A002) - 1 half-size foam insert with 18 spacers (each 55 mm x 40 mm x 20 mm) (HS040A002) - 1 foam lid made of studded foam, 20 mm, self-adhesive - 1 foam cover, 5 mm. A total of 5 compartments, customised for horizontal storage of model railways in nominal size H0, offer your wagons and locomotives reliable protection for storage and transport. Thanks to its horizontal position, the insert can also be used as a display for presenting your own model railway collection. Several trains and wagons can be stored next to each other in one compartment. To prevent the models from bumping into each other or being coupled unintentionally, they are separated from each other using the spacers also included in the set. The models are therefore stored safely all round and are permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. - Each of the 5 compartments is 530 mm long x 55 mm wide x 40 mm deep. - Suitable for models in nominal size / H0 gauge. The studded foam lid is self-adhesive and can therefore be attached to the lid of the Euro container. This ensures that the models do not bump against the lid of the Euro container unprotected during transport. Your model railway collection is stored absolutely safely in the robust Euro container from AUER Packaging made of impact-resistant and dimensionally stable plastic. The lid, with an easy-to-operate hinge system and two locking levers, reliably protects the contents from dust and dirt. The box is stackable and can be carried using the recessed grips on the sides. Dimensions of the Euro Box: - Internal dimensions: 570 mm x 370 mm x 70 mm - External dimensions: 600 mm x 400 mm x 90 mm. The double-size foam insert has the following dimensions: 345 mm x 275 mm x 50 mm total height (40 mm usable height + 10 mm foam base). - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free
