from **48,83 EUR**

Item no.: 376416
shipping weight: 2.20 kg
Manufacturer: Feldherr

Product Description

The compact solution for storing and transporting your model railway collection - Includes 50 spacers. Neatly stored and safely transported. The Feldherr foam insert for model railways in Z gauge, stored upright, in the sturdy Eurobox. A total of 20 compartments - customised for model railways in nominal size Z, in an upright position - offer your wagons and locomotives reliable protection for storage and transport. Several trains and wagons can be stored next to each other in one compartment. To prevent the models from bumping into each other or being coupled unintentionally, they are separated from each other using the spacers also included in the set. The models are thus stored safely all round and are permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. - Each of the 20 compartments is 325 mm long x 17 mm wide x 25 mm deep. - Suitable for models in nominal size / Z scale. Dimensions of the Euro Box: - Internal dimensions: 570 mm x 370 mm x 70 mm - External dimensions: 600 mm x 400 mm x 90 mm. The studded foam lid is self-adhesive and can therefore be attached to the lid of the Euro box. This ensures that the models do not bump against the lid of the Euro container unprotected during transport. The 20 mm thick foam base is located under the two foam inserts and provides height equalisation and additional cushioning. The robust Euro container from AUER Packaging, made from impact-resistant and dimensionally stable plastic, ensures that your model railway collection is stored safely. The lid, with an easy-to-operate hinge system and two locking levers, reliably protects the contents from dust and dirt. The box is stackable and can be carried using the recessed grips on the sides. The full-size foam inserts have the following dimensions: 345 mm x 275 mm x 35 mm total height (25 mm usable height + 10 mm foam base). The set consists of: - 1 Auer Packaging Euro container / Euro box with hinged lid ED 64/75 HG (DSEB070) - 2 full-size foam inserts with 10 bars each for models in Z gauge, upright (FS035A010) - 1 half-size foam insert with 50 spacers (25 mm x 20 mm x 15 mm each) (HS025A002) - 1 double-size foam base, 20 mm - 1 foam lid made of studded foam, 20 mm, self-adhesive - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
