from **64,47 EUR**

Item no.: 376473
shipping weight: 0.80 kg
Manufacturer: Feldherr

Product Description

Neatly stored and safely transported. The Feldherr foam insert for model railways in 0 gauge, stored upright, in the sturdy Eurobox. A total of 3 compartments - customised for model railways in nominal size 0, in an upright position - offer your wagons and locomotives reliable protection for storage and transport. Several trains and wagons can be stored next to each other in one compartment. The models are separated from each other with the spacers also included in the set to prevent them from bumping into each other or being coupled unintentionally. The models are thus stored safely all round and are permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. The nubbed foam serves as a cover and is glued into the lid without any tools. This is slightly smaller than the lid itself to guarantee that the Auer Euro with the inserted knob closes without any problems. The 20 mm thick foam cover placed at the bottom of the box serves as a shock absorber and optimally cushions even heavy goods. The 10 mm foam lid finally covers the filled insert and the box is ready for transport. Your model railway collection is stored absolutely safely in the robust Euro container from AUER. Packaging made of impact-resistant and dimensionally stable plastic. The lid, with an easy-to-operate hinge system and two locking levers, reliably protects the contents from dust and dirt. The box is stackable and can be carried using the recessed grips on the sides.

Details- Chlorine-free and acid-free- Made in Germany
Technical details- Dimensions: 550 mm x 345 mm x 115 mm- Internal dimensions: 570 mm x 370 mm x 165 mm- External dimensions: 600 mm x 400 mm x 185 mm
