from **12,90 EUR**

Item no.: 379662
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Has your colour palette become so big that you're starting to lose track? Are you looking for a solution to store and transport your Vallejo and Army Painter paint bottles upright? Then this Feldherr foam set is the right choice for you. The set consists of 2 Feldherr foam inserts for 80 paint bottles - upright (FS040A014). Up to 80 paint bottles can be stored upright, clearly arranged and transportable. Thanks to the lightweight material, the foam insert is a wonderful addition to your hobby bag. Each of the 80 compartments has a diameter of 24 mm and is 30 mm deep. The insert is therefore ideal for storing upright 17 ml Model Color bottles from Vallejo, 18 ml bottles from Army Painter and similarly sized paint bottles from other manufacturers. The bottles are embedded approximately one third of the way into the insert. One insert is therefore used as a base, which can also be placed on the hobby table as a paint stand. For transport, place the second insert upside down on top as a lid. When filled with standard paint bottles (approx. 75 mm high), there is a gap of approx. 1-2 cm between the two inserts. This means that the set - filled with 17 ml bottles - has a total height of 95 mm. The full-size foam inserts have the following dimensions: 345 mm x 275 mm x 40 mm total height (30 mm usable height + 10 mm foam base).
