### Product Description

When Sigmar and Dracothion decided to unite humans and Stardrakes, they showed great wisdom. For the union not only created a powerful formation for the Stormcast Eternals. Human passion, faith and tenacity combined with wisdom, a sense of justice and pure strength - an unbeatable team. Even though the celestial beings are among the most powerful and noble mounts in the Age of Sigmar, the miniature is a rather fragile creature. That's why you get the matching Feldherr foam set here to protect your Stardrake model. The foam set is suitable for all build variants. You can store warrior miniatures, such as Sequitors, Retributors or character models, in the 8 small compartments next to it. The second insert is placed on top so that the rest of the figure is also safely packed in foam. This is provided with a cut-out that is precisely tailored to the miniature. This ensures that the delicate wings and all other intricate details are optimally protected from damage. When the miniature is finally painted after hours of intensive work, you can relax (at least until the next battle) because the colours are also safe from abrasion and scratches here.

Contents- 1 foam insert for base and 8 miniatures (FSMEPJ080BO)- 1 foam insert as upper part (FSMEPJ090) The lower insert is divided into one large and eight small compartments. The large compartment is tailored to fit the Stardrake perfectly. This keeps the figure securely in place and prevents it from sliding around during transport.
