from **26,29 EUR**

Item no.: 377275
 shipping weight: 0.40 kg
 Manufacturer: Feldherr

Product Description

Keep your Megakopp Bossbunka and up to 13 other miniatures safe with this foam set. Ork Waaaghs don't suffer from delusions of grandeur, they're just practical. Of course, it's pure coincidence that they use the torn-off heads of gargants as command stations. And it is only by chance that they have upgraded it with a thundering sound system and cracking weapons. The model of the Megakopp Bossbunka certainly looks impressive. Due to its size, however, it could cause some headaches when it comes to finding the right storage solution for it. And because we're not orcs and don't want to leave the well-being of this magnificent model to chance, we've designed a matching Feldherr foam set for the Megakopp Bossbunka and up to 13 other models. In the 180 mm high foam set, the Bossbunka can be stored well protected without having to worry about weapons or sound systems being damaged on the way to the next Waaagh. The set consists of: - 1 full-size foam tray with 4 compartments for 1 Megakopp Bossbunka and other models such as Grunzareita or Ork Killabots (FSMFCZ125BO) - 1 half-size foam tray for 10 miniatures such as Zodgrod Wortsnagga, Viechboss, Viechjåga, Meganobz, Ork Stormboyz or Ork Boys (HSMEQL060BO) - 1 half-size grid foam. The foam set consists of a full-size foam insert with 4 compartments and a half-size foam insert with 10 compartments and a grid foam. The half-size insert and grid foam serve as a topper for the full-size foam insert. The largest compartment of the full-size insert serves as storage space for your Megakopp Bossbunka. The smaller compartments provide space for Ork Killabots, Grunzareita or models of a similar size. As the Megakopp Bossbunka protrudes slightly, the set includes a grid foam as a topper. Simply remove the pins from the raster foam at the height of the bossbunka and place the raster foam on the inlay. This provides optimum protection for your miniature. The other side of the full-size inlay is covered with a half-size inlay with 10 compartments. Additional orc models can be stored here. Figures the size of a Zodgrod Wortsnagga or a Viechboss fit into the two large compartments. The middle compartments offer space for models such as Meganobz or Ork Stormboyz. You can store Ork Boys or Viechjåga in the small compartments. Thanks to the precisely fitting compartments, your models stay securely in place during transport. The soft foam not only protects the delicate parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. The compartments of the foam inserts have the following dimensions: The 4 compartments of the FSMFCZ125BO have the following dimensions: - 2 compartments: 120 mm long x 71 mm wide x 115 mm deep - 1 compartment: 120 mm long x 93 mm wide x 115 mm deep - 1 compartment: 222 mm long x 165 mm wide x 115 mm deep. The 10 compartments of the HSMEQL060BO have the following dimensions: - 6 compartments: 54 mm long x 41 mm wide x 50 mm deep - 2 compartments: 68 mm long x 42 mm wide x 50 mm deep - 2 compartments: 68 mm long x 67 mm wide x 50 mm deep. The foam inserts have the following dimensions: - FSMFCZ125BO: 345 mm x 275 mm x 125 mm total height (115 mm usable height + 10 mm base) - HSMEQL060BO: 275 mm x 172 mm x 60 mm total height (50 mm usable height + 10 mm base). The raster foam has the dimensions: - HS060R: 275 mm x 172 mm x 60 mm total height. The set has a total height of 180 mm. - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free
