### **Product Description**

Foam insert to complement the foam set (HB01 set). For storing the expansions "Kellar's Bastion Keep" and "The Return of the Witch Lord" alongside the base game in the original game box. After the adventure is before the adventure. In addition to the base game, the expansions "Kellar's Keep Bastion" and "The Return of the Witch Lord" have also been given a makeover. These impress with detailed plastic miniatures and nostalgically designed game material that will make your heart beat faster. We have the matching Feldherr foam insert for you so that you can enjoy your undamaged miniatures for a long time. This ensures that you can transport all the contents of the expansions well protected and neatly in the original base game box. The foam insert serves as a supplement to the "Feldherr foam set for HeroQuest (2021) - basic game box" (HB01Set). The insert fits into the original board game box of the basic game and offers space for the complete game content of the expansions "The Bastion of Kellar's Keep" and "The Return of the Witch Lord". In combination with the foam set (HB01Set), the lid of the board game box protrudes approx. 2 cm. Three compartments are freely available. All miniatures and terrain pieces of the expansions share a large Feldherr foam insert. Whether angry goblin, ancient mummy or stone gate, each figure and terrain piece has its own customised compartment. The customised cut helps with sorting and also ensures that nothing slips around during transport through the dark catacombs. The intricate details of the miniatures are thus reliably protected from damage. Once you have painted your models, you can be sure that the colours will remain intact even after transport. Three compartments remain free. Here you can store small game material or additional miniatures, for example from future expansions. The 3 free compartments have the following dimensions:- 1 compartment: 18 mm long x 32 mm wide x 30 mm deep- 1 compartment: approx. 89 mm long x 18 mm wide x 30 mm deep- 1 compartment: 54 mm long x 62 mm wide x 30 mm deep This insert is an addition to the foam set (HB01Set) for the "HeroQuest (2021)" base game from Hasbro. Can also be purchased directly in the bundle (HB02Set). When in use, the lid of the box protrudes approx. 2 cm. Larger game components - book of rules, screen, game board, book of challenges and oversized cardboard pieces - are placed on the supplied foam lid of the foam set (HB01Set). The foam insert has the following dimensions: 394 mm x 294 mm x 40 mm total height (30 mm usable height + 10 mm foam base). - high-quality, fine-pored foam-chlorine-free and acid-free- Made in Germany
