from **22,17 EUR**

Item no.: 379814
shipping weight: 0.40 kg
Manufacturer: Feldherr

Product Description

Foam set for the safe storage of a Nagash, Supreme Lord of the Undead model - With 6 compartments for further miniatures. Nagash, Supreme Lord of the Undead is the ultimate personification of death. Behind his banner, legions of undead gather to turn the realms of mortals into the realms of the dead. The huge model of Nagash immediately attracts everyone's attention and puts other miniatures in the shade. Elevated by forbidden tomes and surrounded by spirits, the intricate details alone will make you gasp. The matching Feldherr foam set is available to store your impressive model. This allows you to transport your miniature safely to the next game without any chamber fibrillation. The set consists of: - 1 full-size foam insert for Nagash and 6 other miniatures (FSMFDE145BO) - 1 half-size foam tray for additional stability (HS060RS) The Nagash miniature comes with a customised tray. Your model fits into the insert in all build variants. You can have him summon magic from the Liber Mortis while he raises his staff of power high. Or he can raise Zefet-nebtar, the Blade of Mortis, into the air and make a spirit appear in his other hand. To give the miniature additional stability, the set comes with a grid foam. Glue the individual foam pins into Nagash's compartment. This allows you to stabilise and additionally protect protruding and intricate details such as the ghosts orbiting Nagash. Together with the custom-fit cut-out, the grid foam ensures that you can transport the miniature safely. Surrounded by soft foam, the miniature stays in place and does not slip. This prevents the intricate details from bending and breaking. If you have spent hours or weeks painting your miniature, you can breathe a sigh of relief. The soft foam reliably prevents the paint from chipping or ugly scratches on your painted figure. In addition to the large necromancer, there are 6 compartments of different sizes. These can be used to store other miniatures such as Morghest Harbingers, Blood Knights or miniatures of a similar size. The compartments have the following dimensions: - 2 compartments: 95 mm long x 36 mm wide x 135 mm deep - 2 compartments: 72 mm long x 55 mm wide x 135 mm deep - 1 compartment: 36 mm long x 36 mm wide x 135 mm deep - 1 compartment: 130 mm long x 60 mm wide x 135 mm deep - 1 compartment: 270 mm long x 165 mm wide x 135 mm deep The full-size foam tray has the dimensions: 345 mm x 275 mm x 145 mm total height (135 mm usable height + 10 mm foam base). The half-size grid foam has the following dimensions: 275 mm x 172 mm x 60 mm - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
