Product Description

Get behind the wheel of your food truck and drive off! There's only one rule in the world of street food: if you serve the same food as your competitors, you'll be wiped out. But if you prepare your service carefully, you will become the superstar of the street food scene and can let the sweet taste of triumph melt in your mouth. In Foodtruck, as the manager of a food truck, you try to serve delicious food from burgers to kebabs without letting the competition get in your way. At the start of each round, you sort the food in your deck so that you don't serve food that has already been served by another player, otherwise you will be eliminated from the current round. As the game progresses, more food is added to your deck, while your truck cards with special abilities regularly provide surprises. Will you outshine your competition as a food truck giant? Foodtruck promises fluffy games with an extra dose of schadenfreude.
