Product Description

The Japanese Grand Prix. Engines thunder and rain pours down on the tarmac. Tension and uncertainty are in the air. Normally, the immaculate track promises top speeds and precision. But today it winds like a ribbon of mirror glass through the veil of rain and demands the utmost concentration and skill from the drivers. Heat - Wet Asphalt adds two new, exciting tracks to the acclaimed racing game. The Japanese Grand Prix takes place in the rain, which makes braking before the corners more difficult. The infamous race track in Mexico offers a special thrill for top drivers with its many chicanes.
