from **5,86 EUR**

Item no.: 381397
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

The hangar for your Forge World models - Protects 2 miniatures each of the Vulture Gunships and Arvus Lighters on their way to the next mission. They both provide important support for your Imperial war fleet. Thanks to their powerful engines, the Arvus Lighters are the workhorses among the fliers and provide your troops with the supplies they need for their missions. The Vulture Gunships, on the other hand, are armed VTOL aircraft that are always deployed when precise clearing behind enemy lines is required. So these two are anything but second tier. That's why this Feldherr foam insert gives your Forge World fliers the same excellent protection as all the other models in your fleet. This insert has two compartments - two for the Arvus Lighters and two for the Vulture Gunships - which are precisely tailored to the miniatures. This ensures that the cannons, wings and other sensitive parts remain undamaged on the aircraft. The insert not only protects the intricate details of the models. Embedded in high-quality, soft foam, the colours of the painted figures are also protected from abrasion and scratches. You also get two hexagonal compartments for storing the flight bases and two compartments next to them for the flight stands. You can store markers, dice or other small parts in the two larger compartments. The four rectangular compartments have the following dimensions:- 2 compartments: 52 mm long x 20 mm wide x 25 mm deep- 2 compartments: 66 mm long x 62 mm wide x 25 mm deep The half-size foam insert has the following dimensions: 275 mm x 172 mm x 35 mm total height (25 mm usable height + 10 mm foam base). - high-quality, fine-pored foam- chlorine-free and acid-free- Made in Germany
