### Product Description

All unlocked rewards from the Kickstarter campaign for "Massive Darkness 2: Hellscape" are transported in this secure Feldherr storage box set. Kickstarter campaigns rarely come without exclusive stretch goal rewards. The Kickstarter for "Massive Darkness 2: Hellscape" is no exception and rewards you with more than 80 additional miniatures, new dashboards, additional cards and a lot of new game material. In order not to jeopardise the additional content, there is a matching Feldherr storage box set for the safe storage of all unlocked rewards. The set offers space for all unlocked physical stretch goals and daily rewards from the Kickstarter campaign for "Massive Darkness 2: Hellscape": 2 plastic card holders are included for the small-format cards. All playing cards also fit with protective sleeves. The set offers space for all miniatures and the entire game material from: Rainbow Crossing- Monks & Necromancers vs. The Paragon- Bards & Tinkerers vs Metal Angel- Enemy Box: Feyfolk- Darkbringer Pack To ensure that your miniatures cut a good figure and don't attract negative attention with bent limbs and scratched surfaces, we have distributed 11 foam inserts over two sturdy storage boxes. Whether it's a giant boss or a glittering unicorn, each miniature has its own compartment. The miniatures fit snugly thanks to the precise cut. Even if you stumble through the dark during transport, the figures will stay in place. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. The expansion cards and game material are also provided for. Suitable compartments are available for your game material such as game tiles, dashboards and tokens. Your cards have special card slots with finger-thick cut-outs. These make it easier for you to remove the cards. Of course, the cards with protective sleeves fit into the compartments. So that the smallest of your cards don't drown helplessly in the huge compartments, we have also included two practical card holders in the set. These can be inserted into the card compartments for large-format cards so that even the smallest cards are held securely in place. Finally, secure the top of the inserts with the foam covers supplied. Surrounded by protective foam, your figures cannot fall out or bump into the lid of the box. The FSLB250 and FSLB150 storage boxes are made of coated, double-wall cardboard and are therefore both very light and particularly stable. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and are also easy to transport with the plastic carrying handle.
