FSLB250P12 - Storage box FSLB250 for Project: ELITE - Basic game

from **45,10 EUR**

Item no.: 377600
 shipping weight: 1.10 kg
 Manufacturer: Feldherr

Product Description

Nobody was prepared for it. In the blink of an eye, almost the entire human race was wiped out. But hope dies last. Project: ELITE is ready to strike back. And of course you're right in the middle of it. To make sure you're prepared for all eventualities and don't lose track of the wealth of game material, we're helping you with your retaliation measures with this storage box set. The set offers space for all 59 miniatures and the entire game material from the "Project: ELITE" base game by CMON. The rulebook, hero dashboards and double-sided map board are stored between the foam lids. Thanks to our proven Feldherr expertise, you can neatly organise and safely transport all the miniatures and game material from the "Project: ELITE" base game. This saves you time and nerves when setting up the game. The set contains a total of five foam inserts. Each of the 59 figures is allocated its own custom-fit compartment. This prevents your figures from sliding around and getting damaged. 6 hero figures and 44 Swarm figures can be stored risk-free in the 2 full-size foam inserts (FSLQ050BO) with a total of 50 compartments. A half-size foam insert (HSMEDQ065BO) with 14 compartments is available to provide optimum protection for the slightly larger boss models. Once you have stowed your boss miniatures, you can use the remaining compartments to store the swarm model and accessories, such as damage markers and exploration tokens. There are also plenty of compartments for the many cards, tokens, markers and dice. The total of 16 Demolition, Recon, Extermination and Capture tokens, as well as the electronic timer, can be placed in the flat tray (HS035BF02BO) with its 8 compartments. Dice, playing cards, counter bases, alien cluster tokens, trap tokens and the remaining tokens can be placed in the half-size tray (HSMEQO50BO) with its 7 compartments. To prevent the small playing cards from sliding around and getting mixed up, we have included a plastic card holder (60432) for you, which you can easily insert into the large compartment for storage and remove for playing. The card compartments for the small and normal-sized playing cards are of course also suitable for cards with sleeves. The soft foam protects your figures from impact damage and reliably prevents your painstakingly painted miniatures from being scratched and the colours from being rubbed off. Finally, the foam lids supplied ensure that everything is safely packed and well protected on the go. Simply place the rulebook, hero dashboards and double-sided map board between the foam lids. The FSLB250 storage box is made of coated, double-wall cardboard and is therefore both very light and particularly sturdy. The practical carrying handle makes the box easy to transport. One side of the box can be opened completely. This makes it easier to put away and remove the foam inserts. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.

Details- for "Project: ELITE" base game by CMON- high quality, made in Germany- chlorine-free and acid-free- thermoplastic- no assembly required - ready to play- 3D printed in Germany
 Contents- 1 Feldherr storage box FSLB250- 1 half-size foam insert + 3D insert for game material (HSMEQO50BO + 60432)- 1 half-size foam insert for game material (HS035BF02BO) 5 - 1 half-size foam insert for game material (HS035BF02BO) 5 - 1 half-size foam insert for game material (HSMEQO50BO + 60432) - 1 half-size foam insert for game material (HS035BF02BO) 1 half-size foam insert for game material (HS035BF02BO)- 1 half-size foam insert for boss miniatures and game material (HSMEDQ065BO)- 2 full-size foam inserts for 50 standard miniatures (FSLQ050BO)- 1 half-size foam mat, 10 mm, as height compensation- 1 foam cover made of studded foam, 50 mm- 1 foam cover
