from **49,59 EUR**

Item no.: 377497
shipping weight: 1.70 kg
Manufacturer: Feldherr

Product Description

"For over a thousand generations, the Jedi were the guardians of peace and justice in the Republic, before it went dark. Before the Empire." The Jedi are long forgotten, so you must rise up and put an end to the Empire's oppression. Join the Alliance. With the Feldherr storage box FSLB250, filled to the brim with matching foam, you can stand up to the Empire and reliably protect your miniatures in the process. Fragile parts remain intact, painted surfaces are spared scratches and abrasion. The Force and the commander are with you. This not only gives you a quick and easy overview of your game accessories, but also means that everything is always safely ready for transport to the next game. The HS040BF05BO insert can hold up to 16 standard infantry models. Game material can also be stored neatly and safely here. The customised HS110LG04 insert offers space for two Star Wars: Legion T-47 air gliders. It has been specially designed so that the bases can be placed under the gliders. The HSMEBZ080BO insert has space for two AT-RTs. The specially moulded AT-RT compartments allow the vehicles to be transported safely. A further twelve compartments for rebels round off the insert. The insert has 2 compartments for AT-RTs, 8 compartments for standard rebels and 4 compartments for rebels with heavy weapons. The two large, round compartments of the HSMEM080BO insert are cut to fit 2 laser gun team miniatures. The small compartments provide space for 4 standard infantry and 5 rebels with heavy weapons. You can also store accessories and game material here. A large, customised compartment accommodates the X-34 Land Glider model including base. The other compartments of the HSMEME070BO insert - four large and two small - provide space for other miniatures or game accessories. You can store Alliance models of different sizes safely and neatly in the 15 compartments of the HSMEDR065BO insert. The foam lid supplied rounds things off. The full-size foam lid ensures that the miniatures in the upper insert are also prepared for the next battle. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. The practical carrying handle makes the box easy to transport. One side of the box can be opened completely. This makes it easier to put away and remove the foam inserts.

Details- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free
