from **43,62 EUR**

Item no.: 377618
shipping weight: 1.20 kg
Manufacturer: Feldherr

Product Description

Have you ever danced with a Lunarin in the pale moonlight? With the Stretch Goal Box from the Altar Quest Kickstarter, you have the chance to do so. It's full to the brim. In addition to 135 additional miniatures and 417 new cards, it contains an alternative game board and the exclusive "Call of the Lunarin" expansion. We have designed this Feldherr storage box with matching foam inserts to ensure that everything is packed safely and neatly. The set offers space for all miniatures, playing cards and the complete accessories from the "Altar Quest" Stretch Goal Box from Blacklist Games. All game cards also fit with sleeves. You can store the alternative game board and the contents separately on the foam lid. All stretch goals from the Altar Quest Kickstarter are neatly and securely stored in a total of 3 full-size and 4 half-size foam inserts. Precisely fitting compartments for each individual model ensure that the models do not slide around or bump into each other during transport. This means that the colours of your painted adventurers and villains are spared abrasion and scratches. Three full-size trays with a total of 114 compartments are available for the majority of your miniatures. Here you can store Villains such as Morgan, Minions, e.g. Poxoid Rummager and Werewolves, as well as traps and miniatures of a similar size. For your large miniatures, for example the Rancidian or your large terrain pieces such as the Cage and the Altar of Greed, we have packed a half-size insert with eight compartments and one with seven for you. You can also store the plastic rings, dice and your card dividers together here. Hero models and similarly sized miniatures that you have not yet sorted can be stored in the two identical half-size trays. You can also place your cards here. A total of 6 card compartments await you on the two inserts. All game cards fit in the insert, even with protective sleeves. Finally, a foam lid ensures that your figures are securely packed all around. Stretch Goal rules and contents overview, as well as the alternative game board, are stored separately on the lid. The FSLB250 storage box is made of coated, double-wall cardboard and is therefore very light and also particularly stable. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and easily transported with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box.
