from **50,20 EUR**

Item no.: 377652
 shipping weight: 1.20 kg
 Manufacturer: Feldherr

Product Description

Aridika, the legendary land still casts a spell over adventurers today. You and your fellow soldiers explore abandoned ruins and uncover the secrets of the scorched earth. Packed with detailed miniatures, Altar Quest brings the eerie surroundings of Aridika to life. To ensure that your figures are always well stored, we have the matching Feldherr storage box including customised foam. Keep your models, game cards and game accessories neat and well protected. The set offers space for all miniatures, game decks and the complete accessories from the "Altar Quest" base game by Blacklist Games. All game cards also fit with sleeves. You can store the rulebook, story guide and game board separately between the foam lids. All Altar Quest game contents are neatly and safely stored on a total of five foam inserts. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This means that the colours of your painted adventurers and villains are spared abrasion and scratches. A full-size insert with 32 compartments and 2 half-size inserts with 16 compartments each are available for most miniatures. You can organise all your Minions and door models here. The two Villians Gert and Wynora and the Locked Chest can be placed in the remaining compartments. The large miniature of the villain Bolx the Belchlord has a suitable compartment in the high insert with 7 compartments. The Altar, Blessed Fountain, Alchemy Desk and Book Case can be stored here, as can the Plastic Rings and the Card Divider. The large rectangular compartment is reserved for the card dividers. You divide the miniatures and plastic rings between the other compartments. Your hero models and other items such as Mystical Mirror, Weapon Rack and Fungal Patch will find a quiet place in the two smaller compartments. You also have space for cards and tokens here. However, the majority of your cards and tokens are stored in the large tray with 13 compartments. There are three equally sized compartments in the centre for your cards. You sort your tokens into the remaining compartments. This keeps everything clear and organised and you have everything quickly to hand. All the playing cards fit in the insert, even with protective sleeves. Finally, two foam lids ensure that your figures are securely packed all round. You can store the rulebook, story guide and game board separately between the lids. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and easily transported with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box.
